Admission until 10 AM

# CURANDERO CONFERENCE

The Curanderos (Span. healer) of our Lineage are a tribe of Mexican Shamans. The teachings of these exceptional healers spread in Europe since 1999, starting with the first Light Language Classes of Starr Fuentes' Masterstudent Selena Rodriguez in Munich. Today hundreds and hundreds of her inspired students work in their practice and every day life with these powerful energetic techniques.

During this Conference you will get information about the teachings of the Curanderos. You may share the experience of Practitioners, receive healing (activation of self healing forces), and participate in powerful processes.

Learn what you always wanted to know about the Curanderos and their work and which teachers are officially authorized and certified to teach the techniques of the Starr Fuentes School of Energy and Light Work.
